5th Revised Edition (Hindi Language)

Small Scale Industries (Laghu V Kutir Udyog) refers to those industries which employ less than 50 persons and have an investment in plant and machinery less than Rs. 10 lakhs. These industries play a vital role in the economic development of the country. They provide employment to a large number of people, especially in rural areas. They also help in the growth of the economy by producing goods and services. The government has taken various steps to promote and support these industries. This book provides a comprehensive guide to the establishment and management of small scale industries. It covers various aspects such as selection of site, registration, financing, and marketing. It also provides information on the various government schemes and incentives available for these industries. This book is a valuable resource for entrepreneurs and managers of small scale industries.
